FORWARD LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Helping India make the online switch!

Just a click. That's all it takes for you to open up a world of services. Go 'online,' and the world is at your doorstep!

At Just Dial, we are on the cusp of this transformative period, and are ready to help India switch to the online platform, by directing you to the 'correct' content at the shortest possible time. We plan to be the one-stop-shop for all your queries. No more looking for the right numbers, calling up friends, checking the papers. We are just a click away.

From ordering your groceries, to looking for a mechanic, scheduling a doctor's appointment to booking a table for eight at the premium restaurant, or calling an ambulance – Just Dial has the correct solutions for all your needs. We have revolutionised search options for the user. Our 'Online to Offline' platform, our 'master app' are all targeted to help our user perform multiple activities on a single platform.

With cheaper handsets, lower tariffs, phenomenal internet penetration across India's cities, we realise the possibilities are endless. We, therefore, plan to help make life easier for the user, by helping them with the best options and the cheapest rates. Our aim is to help integrate every aspect of a user's day-to-day life into that one click.

At Just Dial, we are helping India make the online switch.

Just Dial at a Glance

Justdial

A one-stop search destination

We are India's leading local search engine, and have achieved top-of-the-mind awareness, over the last 17 years of operating history. Being India's default destination for local search, we have enabled thousands of SMEs to get discovered online. We have also transitioned to a platform that includes search plus transactions; we refer to this as 'Search Plus' services.

Our registered and corporate office is in Mumbai and we have offices across India in Ahmedabad, Bengaluru, Chandigarh, Chennai, Coimbatore, Delhi, Hyderabad, Jaipur, Kolkata and Pune.

Mission

To provide fast, free, reliable and comprehensive information to our users, connecting buyers to sellers anytime, anywhere.

Value Creation

An efficient and Profitable Business Model

We have a strong brand recall today. Our experience and expertise in India's local markets and our first mover advantage has enabled us to deliver consistent shareholder value.

Our search is already well monetised. We continue to evolve our business model to ride the mobile internet wave in India with a multi-purpose mobile app, what we call the 'Master App', Search Plus engine and services like Shopfront and reverse auction, enabling order fulfilment and enabling comparison-shopping facility to users, to discover the best price for any branded product needed by them.

We aim to increase the number of vendors on Search Plus to cater to the increasing user traffic and further increase margins and achieve operating leverage.

Operational highlights

- Phenomenal user traffic; **1,125 million searches** and **37 million ratings** and reviews as on March 31, 2014
- Engagement driven through **innovative and multi-purpose Master App**
- **17 new products** services soft-launched (Search Plus platform)
- Launch of **Shopfront marketplace and Reverse Auction/Price Discover service**
- **11.8 million** business listings
- **262,150** paid campaigns

Value creation for Shareholders

We have high profit margins, dominant market share, growing revenues, and strong brand recognition today. An asset light business model, negative working capital, zero receivables and a debt free balance sheet are some of our other fundamental strengths.

Managing Director's Message

Dear Friends,

Thank you for your ongoing support and continued interest in Just Dial. In the last 17 years, we have expanded our reach and increased our breadth of services. We have laid a strong foundation in the markets we operate and are committed to serve the local community as a caring and responsible corporate citizen.

Currently, we have over 42 million ratings and reviews published on the website. In FY 2013-14, there were 1,125 million searches from users prior to any purchase decision, indicating the mindshare Just Dial has with consumers and SMEs.

The global economy encountered multifarious roadblocks with slowing growth across all countries in the first half of FY 2013-14. Spill-over of economic conditions from advanced to emerging countries in the form of capital flight from emerging markets and currency headwinds were observed. India too was caught in the grip of heightened inflation and sliding rupee. However as the year progressed, demand accelerated in advanced economies and there were signs of stability. We experienced partial easing on inflationary pressures and there was an overall positive outlook towards growth. By year end, India regained macroeconomic stability and was able to curb inflation.

An improvement in political environment and policy stability, pro-growth reforms and fast decision making by the bureaucracy will drive growth in India and kick start capital investment by corporates. The resultant factor will be employment generation and an overall improvement in consumer sentiment. Infrastructure development especially in the telecom sector is another critical ingredient of our economic well-being. India is today inching towards the landmark figure of one billion mobile subscriptions by the year 2014. By the middle of 2013, the Indian mobile subscriber base stood at 875 million and the country contributed over 13 percent to the global subscription base. In spite of its overweight, India is still a part of the unfinished growth story in global voice telephony and subscriber growth. The mobile phone is increasingly becoming the first screen for many people and many a times the only screen, for a large population residing in rural areas. This trend transcends rural-urban boundaries and demographic profiles.

● ——— ● Managing Director

In 2013-14, we launched our search plus services and with this, we have transitioned from being a 'local search' to a 'search & transact' destination. With our search plus products, users can seamlessly save time and money. These services are meant to cover most of the daily grind of activities and can be grouped into 4 broad categories. (a) Ordering Services (b) Scheduling Services (c) Ticketing / Travel Services (d) Buying Online / Shop-front/ Reverse Auction

Just Dial always benefited by the increasing economic growth & heightened consumer spends. We have also noticed a behavioural and cultural shift amongst populace, for instance, more and more people prefer messaging rather than talking or prefer self help rather than asking others for help/ direction, etc. In this context, we are quite optimistic about our growth prospects and are also well poised to capitalise on the shifting behavioural and accessibility trends of the people at large. As a search destination Just Dial has been successful in empowering users to find anything, anywhere in India. In recent times we have successfully integrated search with the social aspect through our unique reviews and ratings system. Just Dial is perhaps the only search engine to integrate your friend's reviews to your search results. In order to further enrich your experience we have launched our own JD Maps. Very soon JD Maps will have more geo-coded data than any other mapping solution for this country.

I am glad to inform you that we delivered a phenomenal performance in FY 2013-14, despite subdued growth conditions. Our efforts for expanding into Tier 2, Tier 3 cities and deepen penetration into existing cities has yielded very good result and as a result our paid campaigns increased from 206,500 in March 2013 to reach 262,150 in March 2014. We registered 31% EBITDA margins and our PAT margins rose to 24%. Our operating income increased 27% from ₹ 362.8 crores to reach ₹ 461.3 crores. Our profit after tax touched ₹ 120.6 crores from ₹ 68.5 crores in FY 2012-13, up by 76%. Our cash flow increased from ₹ 102.3 crores to ₹ 133 crores over 2013-14.

Overall searches on our platform grew by 44%. It is very clear that the searches are moving online and that is proven by the fact that around 68% of our overall traffic comes from the internet platform. With the increasing affordability and accessibility, more and more searches online are moving to the mobile platform. Reflecting this shift, our mobile searches grew 183% and mobile reflects 31% of our online traffic.

It is imminent that internet penetration in India will grow leaps and bounds from the levels of 15% to 40-45% in the next 3 to 5 years. We also believe that the future is no longer only about relevant, accurate or enriched content but users of search products would prefer to search and transact in the same destination.

In 2013-14, we launched our search plus services and with this, we have transitioned from being a 'local search' to 'search & transact' destination. With our search plus products, users can seamlessly save time and money. These services are meant to cover most of the daily grind of activities and can be grouped into 4 broad categories. (a) Ordering Services (b) Scheduling Services (c) Ticketing / Travel Services (d) Buying Online / Shopfront/ Reverse Auction.

Through our unique online shopping platform, we aim to provide users with the ability to discover best price for any branded goods from various offline local neighbourhood stores, thus ensuring almost instantaneous delivery. JD Shopping and reverse auction will help users save money without compromising

on quality of product and vendors. Our platform will thus provide lakhs of offline stores (which constitute 98-99% of the retail market in India) a level playing field to attract the online buyers – what we metaphorically call – ‘Online To Offline.’

Driven by increasing penetration of affordable smart phones and cheaper data plans, we are quite optimistic about the prospects for our Company as the future beckons convenience through a digitally empowered life. The mobile device is increasingly becoming the fulcrum of all user activities, and we vow to empower the user with an ecosystem that can provide them with world-class services and experience the ‘wow’ effect across all our mediums. Our ‘master app’ will allow the users to perform multiple activities/ transactions on a single platform and to enjoy the convenience of storing multiple details of personal information in a single place. Also, it will solve the problem of ‘App Fatigue’ that is set to plague the users with multiple businesses launching their own app. We also endeavour to reach out to as many businesses as possible to create awareness, and explain the impact of digitalisation and the power of the Just Dial platform and how we can provide the businesses with necessary visibility with richer content like photos, logos, videos, catalogues etc. so they can be easily discovered and transacted.

The opportunity in mobile and local is just staggering because the device we hold in our hands is like a remote control to our lives. And I feel we are entering a transformative period with mass adoption of technology. The confluence of three domains - mobile, social & location based technologies – has created something that can be described as the ‘perfect storm’, an unusual convergence of forces which will enable more info-gratification for users on the go in the near future.

I want to thank internet users and consumers who access Just Dial for their information needs and also thank our SME partners for investing in us. This would not have been possible without the dedicated efforts of the Just Dial team. Hence I would like to congratulate them for the continuous good performance the Company has delivered.

Finally, we believe a satisfied user is the best business strategy of all and our success will rest in how well we are able to keep our users happy across all their interactions with us, on all platforms. We are confident to leverage market opportunities and achieve higher growth and generate greater value for our shareholders.

Regards,

V.S.S. Mani

Managing Director

Our platform will thus provide lakhs of offline stores (which constitute 98-99% of the retail market in India) a level playing field to attract the online buyers – what we metaphorically call – ‘Online To Offline.’

Shopping, Banking. Networking. Dating - have all gone online.

Why should local search be any different?

From a telecom wave to the internet wave and finally the mobile internet wave (with smartphone penetration slated to grow at 91% CAGR till 2016), we have evolved constantly and revolutionised the search experience for India.

We have successfully integrated **SEARCH + CONVENIENCE + SOCIAL + VALUE** for both SMEs and our users and delivered compelling win-win solutions.

We are changing the purchase process for our users in a very user-friendly way. The accessibility of mobile content has led to consumers seeking more information at their convenience through their smartphones. As consumers seek info-gratification anytime, anywhere to explore, evaluate and then purchase, we extend services from search to 'search+transaction' with Search Plus services.

What do consumers want?

- They want relevant products and services.
- They think, "I am overwhelmed with the plethora of choices, I need unbiased help and the best price possible!"

Here, we become the guide - directing users to the correct and most relevant content in their local vicinity, on our platform. We have one of the largest range of categories ranging from plumbers and repairmen to doctors and restaurants which can be searched for. Besides this, we provide multiple sorting options on the basis of geographical vicinity, popularity and/or ratings so that users may benefit from experiences of other users.

Moreover, besides enabling them with advanced search options we also enable them to transact on our platform.

In the Explore stage

- We understand consumer needs.
- We are a **one-stop search destination** and integrate all user needs on a **single platform** we get **relevant and accurate content with enrichments like photos, logos, operational hours, etc.**

The Evaluate Stage

Users are more focused now and less stressed but do not want to be sold out by unverified claims. We aid the purchase decision by showcasing various trust factors which will factor in the vendor's reliability and enable any user to make an informed decision. We have added friends' ratings and reviews besides the ratings and reviews from fellow-users providing higher credibility for users' final decision.

The Experience

- Happy users.
- We gain their trust.
- They send reviews to support other users.

We have garnered over 37 million ratings and reviews (as on March 31, 2014) from users on our portal, reflecting the trust and the positive experience users have had with us.

Extending a Unique Value Proposition

We offer user-friendly features like ratings and reviews, location-based search, JD Maps for directions and over 37 million ratings and reviews across categories on our portal and unique features like Friend's Ratings and transactional tabs.

Look for a restaurant on one site, read the review on another, order on a third?

No! All at one place,
at the same time, online –

the **Search Plus
Engine**

Searching for products and services is no longer the onerous task it used to be. The way we search has changed dramatically, spurred by low cost data plans from mobile service providers, broadband penetration across the country, and the introduction of affordable smartphones. We see this change as a huge opportunity for us to take the search experience to a whole new level.

A distinct trend is also shaping search habits among people, our users. Gone are the days when a phone was just an instrument to talk and text; today almost every task is done over a phone. People are spending more time on messenger services rather than use the phone for calling; time spent on social networks is increasing and the internet is here to be an integral part of our lives.

Following this trend of mobility, 24x7 connectivity and the change in habits of people, it was a logical decision for us to not just remain a Search Engine but to become a Search Plus Engine.

According to industry data, 99% of commerce is carried out on an offline platform in India. We recognise that there is a huge potential to create a system which we call 'Online to Offline'. Through this system, we are only an enabler of transactions over our platform while the last mile logistics is taken care of, by a large number of associates (SMEs). We are trying to change the way people do business and the way they buy things.

We have already launched an array of Search Plus services like Order Food Online, Order Wine Online, Book a Doctor's Appointment online, Book Movie Tickets Online, Book a Cab/ Flight/ Bus Online, Order Grocery Online, Schedule a laundry pick-up online, Schedule a courier pick-up online, among others – all on a single platform – available at a click or a call. In total, we have 17 Search Plus services live on our platform (as on March 31, 2014).

We have already launched an array of Search Plus services like Order Food Online, Order Wine Online, Book a Doctor's Appointment online, Book Movie Tickets Online, Book a Cab/ Flight/ Bus Online, Order Grocery Online, Schedule a laundry pick-up online, Schedule a courier pick-up online, among others

Expanding Product and Services

We plan to expand by including a significant number of businesses for every neighbourhood and every zip-code.

We are also in the process of developing a technology platform that provides users with seamless and integrated search and transact option i.e. a search shop experience on Just Dial for every need of theirs. Our aim is to ensure convenience for our users and save time and money as well. We are popularising Search Plus transactions on a free trial basis.

It used to take at least four phone calls and numerous reminders to friends and relatives to find a decent carpenter

Now it takes just a few seconds online. 

The Online to Offline Benefits

Two-fold Online to Offline benefits are apparent to both transacting parties. The SME gets a virtual presence to not just be discovered by consumers but also get transactions via the medium. On the other hand the user experiences convenience, like never before, by having a one-stop search destination for most of his/her needs. The opportunities in the domain are immense.

With rising internet penetration, there are more online searches before purchasing a product or service. This also gives us higher operating leverage and better margins.

Enhancing our Reach in India

We aim to reach more customers and are enrolling fresh vendors on our Search Plus engine, to serve the needs of the users.

We believe that with the changing eco-system and increasing shift towards the mobile medium alongside the affordability of smartphones and reducing costs of data plans the effects of the transition are also felt by the SMEs. They are more receptive to the idea of having a digital and virtual presence. As the most-favoured search destination, Just Dial provides a platform for SMEs to have a greater presence with richer content like photos, logos, catalogues, rate cards, etc. Our aim is thus to sensitise and educate the SMEs to the benefits of being listed with Just Dial.

Price Discovery – A compelling value proposition for the user

Once a user has made a choice of a product, the 'Best Price Discovery' remains the only issue. To counter this concern, Just Dial will offer the users a list of local vendors, along with trust factors and send the offer prices of these local vendors for the selected products to the users, so they may make a well-informed decision.

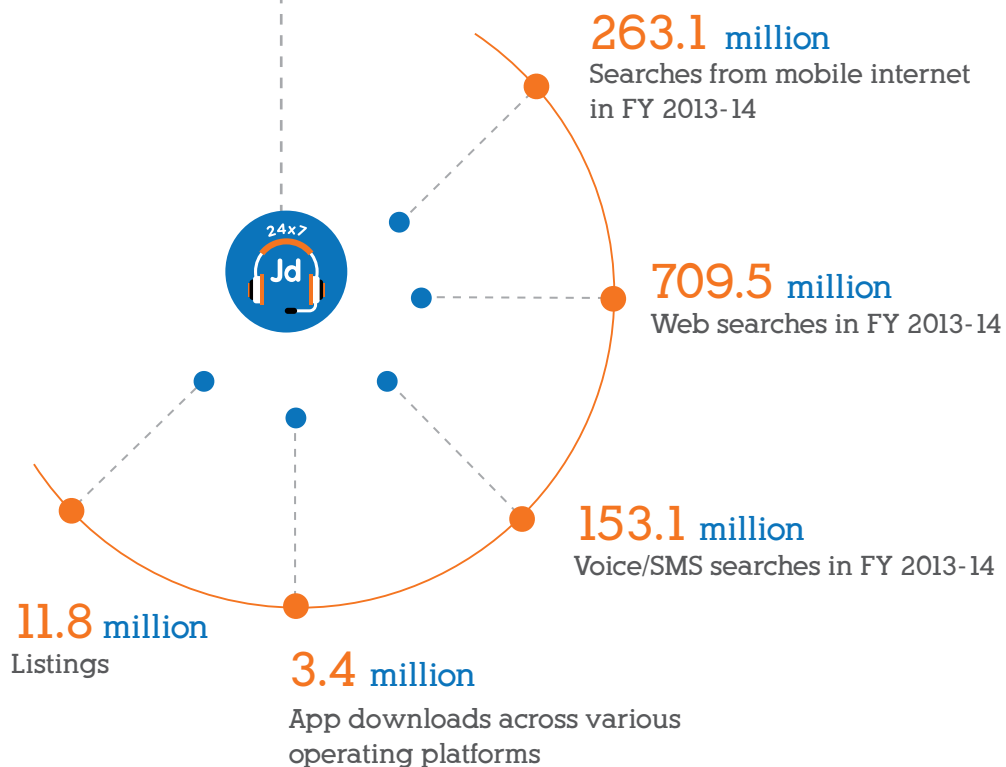

Moreover, since the vendor is local, users are likely to be offered doorstep delivery on the same day or a cash on delivery option.

Instantaneous quotes. From multiple vendors. Welcome to the world of Comparison-shopping.

Technology Architecture and Teamwork

We have lived up to our users' trust and expectations and efficiently delivered solutions to their queries, whether on voice or internet channels. Our database and search logic is built on strong analytics.

Customised infrastructure to provide uninterrupted and efficient service

We have developed apps for Android, iOS, Windows, WP7 and Blackberry OS in the mobile internet channel.

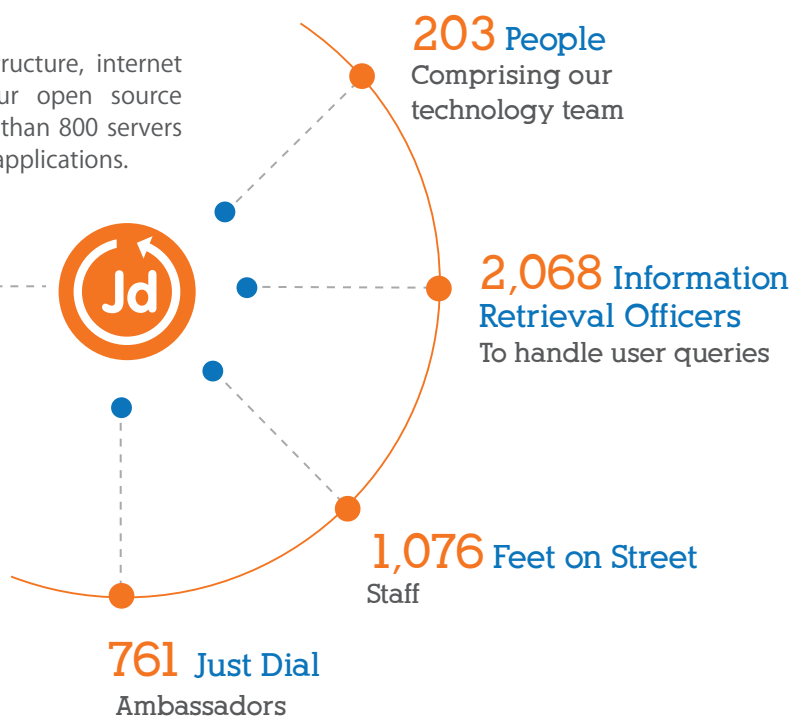

For PC internet, we have instantly answered queries by using open source platforms and have witnessed an increase in web searches since the launch of the website to 59 million web searches per month. In the voice/SMS channel, we have answered user calls promptly and provided multi-lingual support 24x7, for every call in the monthly traffic of 12.75 million calls.

Robust Technology Foundation

We ensure accuracy and quality of the data. A dedicated team regularly monitors and updates the information and adds the latest entries to ensure accuracy of the information provided to users. Our team also verifies the data collected (like geographical location, images, videos and category of each business).

We monitor the systems infrastructure, internet and database continuously. Our open source platforms are powered by more than 800 servers for various intranet and extranet applications.

Corporate Social Responsibility

Our contribution to the cause of education reflects our business culture of sharing corporate benefits with the community and growing together. We intend to walk forward on this path and make a marked difference in the society in the years to come.

We began our contribution to society by providing children of our blue-collared employees, education in English medium schools to enable them to be at par with other children. We have borne all the basic costs of their schooling.

This initiative has helped them in becoming employable and gaining sustainable and quality employment when they grow up.

Providing Quality education

We believe every child has countless ideas and curiosity and with an enabling factor, they can realise their true potential. This resonates with us since we are also driven by ideas and the power of simplicity.

We have adopted a school run by the Art of Living Foundation, Sri Sri Ravi Shankar Vidhya Mandir at Dharavi, Mumbai. The school is an English Medium school, aided by modern education techniques and comprises over 290 children from the nearby slums. We bear all expenses relating to the entire functioning of this school. We also give the necessary support and mobilise resources in many areas, including infrastructure, providing teachers to the school, monitoring and evaluating, providing computers as well as food and nutrition. We sponsor all technological and operational facilities for the school. The thrust of the project involves bettering the education and learning experience of the child.

We contributed ₹ 4.8 million towards the school's operational expenses in FY2013-14.

Training teachers with better teaching methods

We also provide teacher training to upgrade teacher skills so that they can impart quality education for holistic and well-rounded learning of the students.

Infrastructure Development

We also support activities like renovation and general infrastructure repair and maintenance, landscaping and environmental beautification. It also provides amenities and resources to improve learning conditions- which includes supply of furniture, nutritious food, books and equipment.

Management Discussion and Analysis

GLOBAL AND INDIAN ECONOMIC REVIEW

Global growth increased in the second half of 2013 as reflected in the increase in global trade and industrial production. This was mostly driven by a moderate fiscal consolidation and supportive monetary policies.

The global economy is today, witnessing growth at different rates. While US and UK have seen a broad-based positive growth, the Eurozone experiences uneven recovery. Emerging markets on the other hand, experienced headwinds due to rising bond rates and better prospects in advanced economies leading to greater investor concerns about vulnerabilities. This led to capital outflows, which recovered by the end of FY 2013-14 and yet remain at lower levels compared to the US pre-tapering announcement.

The IMF predicts global growth at 3.6% in 2014 and this growth will further strengthen to 3.9% in 2015. (Source: International Monetary Fund, World Economic Outlook April 2014)

The Indian economy reported retrenchment of capital inflows after the US Fed's announcement regarding tapering of fiscal stimulus. The high fiscal deficit and high current account deficit (CAD) curtailed the government to implement an expansionary fiscal policy and also prevented RBI from lowering interest rates. High inflation especially food inflation at 9.45% (Source: Office of the Economic Advisor) for the most part of the year dampened consumer sentiments. All these factors resulted in sluggish investment activity. India recorded 4.7% growth in FY 2013-14.

Growth in FY 2013-14 was impacted positively by the agricultural sector which grew at 4.6%. The electricity sector also posted a healthy growth rising at an annual 6.0% in FY 2013-14. The manufacturing sector continued to remain under stress, declining 0.2% year-on-year in FY 2013-14 compared with 1.1% growth in FY 2012-13. The mining sector, which has borne the brunt of policy delays, fell 1.9% year-on-year in FY 2013-14 compared with an annual decline of 2.2% in the year FY 2012-13. (Source: Central Statistics Office)

Going forward, India has regained macroeconomic health as fiscal deficit is reined at 4.6% and CAD is lowered to 1.7%. Robust capital inflows have kept financial conditions comfortable and India has built adequate buffers. Comprehensive policy actions and revival in aggregate demand should help India move forward on the path to sustained growth. India is poised to grow at 5.4% in FY 2014-15. (Source: IMF)

Indians are more open to paying for content on mobile - the paid app market estimated at ₹ 300 crores, is far higher than what Indian consumers have ever been paid for digital content consumption.

INDUSTRY OVERVIEW

Commerce in India and worldwide is now being driven by the SoLoMo (social, local and mobile) model. Rapid internet penetration over a mobile platform is changing the way in which business models are being created.

India has more than 160 million Internet users, of which 86 million access Internet using their mobile devices. In the last 3-4 years, 22 million users accessed the Internet through a 3G connection and 36 million smartphone users existed as compared to 60 million PC users. Over 9% of overall Internet page-views in India come from mobile devices, estimated to go up to 28% in 2015 according to Cisco and over 40% of searches on Google originate from mobile devices.

Consumers consume more information with continued access to internet and make online searches combining convenience and technology. Search services are evolving with innovative value adds like user-driven ratings system, greater transactional options for the end-user after choosing a particular vendor/service.

GROWTH DRIVERS

Some of the key growth drivers for the industry are:

Micro, Small and Medium Enterprises – the new rising force

Micro, Small and Medium Enterprises (MSME) contribute nearly 8% of the country's GDP, 45% of the manufacturing output and 40% of the exports employing 101.3 million people in over 44.8 million units (Source: Government of India, MSME Annual Report, 12-13) throughout India. With rising services share in consumer spending, MSMEs utilise their strengths in entrepreneurship and innovation and serve an increasing middle class.

As demand for their services grows, MSMEs are looking at various online platforms, including search engines, to get discovered and transacted.

Mobile-driven Life

Internet penetration is expected to increase above 20% in 2014 and cross 40% by 2020, mainly due to mobile internet. Critical mass will be achieved when users have greater internet access, devices and on-delivery payment options even as they utilise their mobiles for greater information, entertainment and transactions. Businesses spanning e-commerce and digital services gain from this mass usage that extends to search, shopping, travel and beyond over the next few years.

Online advertising led by advertising on video/social networking platforms and independent digital advertising networks (particularly for mobile and video ad placements) in general are well-positioned to gain from this consumer trend. Specialty classifieds' advertising will gain as well. Strong growth in in-app ads and mobile video are also expected.

Digital advertising is likely to achieve a 28% CAGR over FY 2013-18 versus overall advertisement growth of 14% over the same period.

Online classifieds' advertising

Classifieds are gaining popularity by being specific to the requirements of buyers and sellers. There is a positive trend for verticalised search as well as local business search. Verticalised classifieds in India are formed by a mix of segments with reasonably high online penetration (jobs and matrimonial ads) spurred by economic growth. The classifieds market in India will be fuelled by growing services sector and favorable demographic trends and is poised to grow at 20% CAGR over FY 2013-18.

Smartphone growth

Increasing use of smartphones will enable more information being consumed online. All three categories of classified advertising (Vertical, Horizontal and Local search) are evolving rapidly. Driven by the growth in smartphones, there is a tremendous amount of activity being noticed in the mobile classifieds segment.

It is expected that there will be a healthy increase in internet users (18% CAGR over FY 2013-18) and within that mobile internet users (22% CAGR over FY 2013-18) is likely to grow rapidly.

BUSINESS REVIEW

JustDial Limited (Just Dial) provides local search related services to users in India and has also initiated its 'Search Plus' Services for the users. These services are aimed at making several day-to-day tasks conveniently actionable and accessible to the users. With this step, Just Dial is transitioning from being purely

a provider of local search and related information to being an enabler of such transactions. Just Dial intends to provide an online platform to thousands of SMEs to get them discovered and fulfil transactions among users and SMEs.

Just Dial is the undisputed leader in 'local search' in India. 44% and 37% CAGR in advertising campaigns and revenues, respectively, over 2010-14 shows that the Company has successfully leveraged its first mover advantage among consumers seeking information about local businesses (particularly SMEs). Despite weak macro-economic environment, revenues posted 33% CAGR over 2012-14, driven by customer additions (24% CAGR). However, SME churn (partly driven by business closures) is something that is characteristic SME behaviour and needs to be managed accordingly.

Efficient and profitable Business model

- Negative working capital and positive free cash flow, ensuring that the Company can promote its new products (Search Plus services and marketplace)
- Paid Advertisers primarily across 11 large Indian cities (Contribute to approximately 91% of the Company's revenues)
- Paid Advertisers pay fixed monthly/weekly or annual fees to run search-led advertising campaigns for their businesses on Just Dial's platform
- Two types of paid memberships: Premium (Top 3 positions) and non-premium packages which determine priority of placement in search results
- Just Dial also runs multiple city campaigns for pan-India customers
- 2,979 tele-sales executives and 1,076 'feet on street' and 761 Just Dial Ambassadors selling to SMEs

- **First Mover Advantage in the Indian Local Search Market**
- **Top-of-the mind brand recall with consumers or users**
- **Attractive value proposition for local SME base**
- **Experience and expertise in Indian local markets**
- **Advanced and scalable technology platform**

Service platforms

The Company aims to be a one stop destination for search and transactions alike and provides its users with fast, user-friendly and free local search service through various mediums like internet, mobile internet, mobile applications, voice and SMS. For the FY 2013-14, the Company received a total of 1,125 million searches. This addition in searches was on grounds of size, depth, relevance and reliability of the Company's database which has resulted in new and repeat users.

VOICE, PC AND MOBILE INTERNET SEARCHES

Internet

Approximately 47% of the traffic for FY 2013-14 came through PC Internet which resulted in 709.5 million searches in the year. With features like predictive auto-suggest, maps and directions, ratings and reviews and search by Category, Company and Product, the Company has noticed an increase in web searches since the launch of its website and it handles around 59 million web searches per month. The Company has adopted indigenous technology, using open source platforms and has leveraged the benefits of technological expertise to the hilt to enhance the experience for its digital users.

Mobile internet

In FY 2013-14, the Company received approximately 21% traffic from mobile internet which resulted in 263.1 million searches from the mobile internet platform. The users can enable the service on their internet browser on their mobile internet enabled devices (<http://m.Justdial.com> or <http://wap.Justdial.com>). The Company also has mobile applications across the operating platforms like Android, iOS, Windows and Blackberry. Since launch, these apps have been downloaded more than 3.4 million times till March 2014. With advanced location based results being displayed, the efficacy of search is enhanced greatly on mobile devices.

Voice & SMS

Since inception of the Company, voice based search services form an integral part of the business. The multi-lingual service is available 24 hours a day and seven days a week through its hotline number. Apart from the national hotline number, 08888888888, it also has eight local numbers specific to certain cities. Another quick and easy local search mode, SMS search have been designed for users who seek instant information. During the FY 2013-14, the total Voice/SMS search requests increased to 12.75 million per month. The Company has eight in-house call centers in Ahmedabad, Bengaluru, Chennai, Delhi, Hyderabad, Kolkata, Mumbai and Pune.

SEARCH PLUS

Just Dial is transitioning from being purely a provider of local search and related information to being an enabler of such transactions. These services are aimed at making several day-to-day tasks conveniently actionable and accessible to the users and provide an online platform to thousands of SMEs to get them discovered and transacted. Just Dial already has launched an array of search plus services like Order Food Online, Order Wine Online, Book a Doctor's Appointment online, Book Movie Tickets Online, Book a Cab/ Flight/ Bus Online, Order Grocery Online, Schedule a laundry pick-up online, Schedule a courier pick-up online, among others - all under one single roof – available at a click or a call.

The services may be broadly classified under:

- Ordering Services
- Scheduling Services
- Travel/ Leisure Services
- Buying products/ Price Discovery through Reverse Auction

The Company plans to build a comprehensive list of number of businesses for every neighborhood and every zip-code. It is popularising Search Plus transaction through free trial basis and will start monetising it thereafter. The Company is in the process of developing a technology platform that enables users to search and transact for almost all his/her day-to-day requirements on a single platform in a seamless manner. The aim of the Company is to ensure convenience for its users and save time and money as well.

The mobile app helps the Company to deepen engagement with the user community as well as engage vendors/SMEs by providing them with an exclusive marketing tool to run their business efficiently.

By the end of FY 2013-14 the Company has added over 17 Search Plus services live on its platform, from ordering groceries online to scheduling a doctor's appointment and also booking a table at a restaurant.

Extending Value Proposition

The Company has replaced Google maps with maps solution, JD Maps for directions on its platform. The Company has witnessed a growth of 61% in user ratings and reviews across categories on its portal from 23 million ratings and reviews in FY 2012-13 to over 37 million ratings and reviews in FY 2013-14. In addition to this, with social features like Friend's Ratings, the users get enhanced credibility and confidence to source the right vendors and with functional features like Maps and transactional tabs, the Company is well poised to be a 'one stop destination' for most of the users' day-to-day needs.

REVIEWS AND RATINGS

Listings

The main revenue generation for the Company comes from the advertisers who list themselves with the Company on various subscription and fee-based packages. A large portion of listings comprises SMEs from a wide range of industry sectors. The SMEs, with limited marketing resources, find the perfect platform with the Company to advertise at the micro level in a cost effective mode. In the paid listings, the Company offers the advertisers to choose between Premium and non-Premium packages. Overall, the Company has grown its listings by 30% from 9.06 million in FY 2012-13 to 11.8 million listings in FY 2013-14 and these establishments enjoy access to users and potential buyers.

TOTAL BUSINESS LISTINGS

Ensuring Data Integrity and Quality

The Company ensures its database is updated with relevant information on all businesses. A dedicated team regularly monitors and updates the information of businesses, supplementing with new entries to ensure accuracy of the information provided to its users. The data collected (like geographical location, images, videos and category of each business) is periodically verified by the database team. Some of innovative ways in which the Company simplified the searches on its database were as follows:

Geo-Coding: Tagging process that facilitates location-based searches

OPERATIONAL REVIEW

Sales and Marketing

Having operations in multiple cities across India, the Company has a strong 4,800+ sales and marketing executive team consisting of 2,979 Tele-sales executives, 1,076 Feet-On-Street and 761 Just Dial Ambassadors. The Company conducted regular training programs to ensure the team converts its free business listings into paid listings. The sales and marketing team works closely with the database team to identify and reach out to potential advertisers. Various promotional schemes are carried out which are focused on category based SMEs, with customised membership packages to create a cost-effective platform for expanding their businesses.

Marketing and business development

The Company conducts regular advertising campaigns to strengthen its brand and enhance its exposure to a wider user base. The Company uses digital marketing tools, such as virtual marketing and online display banners, and has a strong presence across social media platforms (like Facebook and Twitter) as well. As a part of this exercise, the Company has created a team of marketing executives (761 as on March 31st, 2014) called 'Just Dial Ambassadors'. These executives educate the SMEs about the array of services, collect the data from the SMEs and market the Just Dial brand. The Company has seen a growth of 27% in paid campaigns from 206,500 in FY 2012-13 to 262,150 in FY 2013-14.

PAID CAMPAIGNS

Technology and infrastructure

The success of the Company's business is highly dependent on efficient and upgraded technology and sound infrastructure. These two factors are integral for the success in operational and management of assets. The Company has a team of 203 technology experts with wide industry experience. The team develops new software applications for daily business operations.

The systems infrastructure, internet and database are secured at IDC plus all centres and are continuously monitored by a strong engineering support team. The open source platforms are powered by more than 800 servers for various intranet and extranet applications. The strong information technology system allows the Company to promptly process user inquiries and requests in the shortest possible time.

Security

Possessing information of the buyers and advertisers, the Company maintains a stringent security on the information database. It has strong controls, policies and procedures pertaining to information security which ensure prevention of any fraud or loss of information. All the installed servers of the Company at all data centers and offices are secured with firewalls to prevent hacking.

FINANCIAL REVIEW

In FY 2013-14, the Company continued with its focus on adding new services and expanding its SME base to a large number of vendors. The Company is focused on increasing its presence in more cities and towns. The all-round operational and technological excellence has led to consistent increase in revenues and profitability over the years.

Revenue (from continuing operations of search and other related services) increased by 27.16% from ₹ 3,627.68 million in FY 2012-13 to ₹ 4,612.93 million in FY 2013-14. The increase in revenue demonstrates the growth in market share that the Company has achieved due to the robustness of its model and the efficiency of the product offerings and services to suit the requirements of its users.

Other income increased by 192.82% from ₹ 136.43 million in FY 2012-13 to ₹ 399.49 million in FY 2013-14 primarily due to increase in profit from sale of current investments. The current investments are disposed off and reinvested in more efficient investment portfolios on an ongoing basis.

The total income increased by 33.16% from ₹ 3,764.11 million in FY 2012-13 to ₹ 5,012.42 million in FY 2013-14 representing the overall growth in business during FY 2013-14.

Profit before tax and exceptional items from continuing operations increased by 64.93% from ₹ 999.53 million in FY 2012-13 to ₹ 1,648.56 million in FY 2013-14 and Profit before tax from continuing operations (after exceptional items) increased by 67.49% from ₹ 984.28 million in FY 2012-13 to ₹ 1,648.56 million in FY 2013-14. The operating leverage of the Company is reflected by the increase in the operating

profit which has grown from 1,007.19 million in FY 2012-13 to 1,421.98 million in FY 2013-14.

Profit after tax for the year increased by 76.18% from ₹ 684.57 million in FY 2012-13 to ₹ 1,206.08 million in FY 2013-14.

The Company has seen increase in cash flows from operations from ₹ 1,023.18 million in FY 2012-13 to ₹ 1,330.36 million in FY 2013-14.

Basic Earnings per share increased to ₹ 17.23 in FY 2013-14 as compared to ₹ 10.30 in FY 2012-13 despite the increase in the average weighted number of shares from 66.49 million shares in FY 2012-13 to 69.99 million in FY 2013-14. Diluted Earnings per share increased to ₹ 17.11 in FY 2013-14 as compared to ₹ 9.95 in FY 2012-13.

Revenue

Revenue from local search operations is derived from various service offerings to Small and Medium Enterprises (SMEs). The SMEs subscribe to either the premium packages (Platinum, Diamond and Gold) or non-premium packages by paying the listing fees through upfront payments or installments under Electronic Clearing Systems (ECS).

The Company operates a prepaid revenue model and advances are received from advertisers as listing fees. The difference between the collected revenue and accrued revenue is accounted as unearned revenue in the Balance Sheet. The unearned revenue has increased to ₹ 1,618.41 million in FY 2013-14 from ₹ 1,354.88 million in FY 2012-13 demonstrating the faith reposed by customers on an ongoing basis as a result of the premium quality services provided by the Company.

Other income

The profit from sale of current investments has increased to ₹ 348.19 million in FY 2013-14 from ₹ 102.28 million in FY 2012-13 due to gain on sale of mutual funds. The Company switches out its investments from funds based on performance of such funds and reinvests the amount in other funds to optimise the yield on current investments. The profit from sale of current investments is a result of this strategy.

Employee benefit expense

The employee benefits expense increased by 27.18 % from ₹ 1,797.24 million in FY 2012-13 to ₹ 2,285.71 million in FY 2013-14 primarily due to increase in employee strength. Our focus on enhancing technology infrastructure and expanding our geographic footprint necessitated employee augmentation during the year. The employee benefits expense as a percentage of total expense has increased to 67.95% in FY 2013-14 from 65.01% in FY 2012-13. The employee benefits expense as a percentage of total revenue has decreased from 47.75% in FY 2012-13 to 45.6% in FY 2013-14. The number of employees has increased to 8543 employees in FY 2013-14 from 7,342 employees in FY 2012-13.

Finance costs

As the Company has no debt on its Balance Sheet, there is no interest burden on the Company.

Depreciation and amortisation expense

The depreciation and amortisation expense has increased by 20.04% from ₹ 144.04 million in FY 2012-13 to ₹ 172.91 million in the FY 2013-14. The Company has been investing in modernisation of its facilities and has invested ₹ 50.15

million (about 50% of the total outlay) on Information Technology and ₹ 20.84 million (about 21% of the total outlay) on increase and upgradation of the technology required for conducting efficient operations. The Company's resolve is to complement the increase in employee strength with best possible technological support for attaining a niche position in conducting the operations.

Other Expenses

Other expenses have increased by 9.96% from ₹ 823.24 million in FY 2012-13 to ₹ 905.23 million in FY 2013-14. The increase in other expenses is due to increase in database and content charges, rates and taxes, bank collection charges, repairs, travelling expenses and communication costs.

Income Taxes

The Income Tax provision (current tax) increased from ₹ 299.71 million in FY 2012-13 to ₹ 442.48 million in FY 2013-14, primarily due to increase in profits. The effective tax rate for current tax has reduced from 30.45% in FY 2012-13 to 26.84% in FY 2013-14. This is due to increase in profit from sale of current investments on which indexation benefit leads to lowering of the tax impact and also due to interest on tax free bonds. The profit from sale of investments has increased to ₹ 348.19 million in FY 2013-14 from ₹ 102.28 million in FY 2012-13 and in the interest on tax free bonds is ₹ 30.48 million in FY 2013-14 from ₹ Nil in FY 2012-13.

Current investments

The Company has substantial liquid cash reserves to support the growth of its business. The Company's investments in mutual funds have decreased from ₹ 4,857.92 million in FY 2012-13 to 4,709.92 million in FY 2013-14. In addition to the Current Investments, the Company has invested in tax free bonds of ₹ 1,547.08 million in FY 2013-14 as compared to ₹ Nil investment in tax free bonds in FY 2012-13. The Company has deployed its current investments in debt based mutual funds and tax free bonds to attain a balance between returns and preservation of capital. The funds are available for redemption as per the fund requirements of the Company.

AUDITOR'S OBSERVATIONS

The Statutory Auditors of the Company have made the following observations in their audit report for the year ended March 31, 2014:

Clause ix (b)

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, investor education and protection fund, sales tax, employees' state insurance ('ESIC'), wealth tax service tax, customs duty, cess and other undisputed statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable, except for the following ESIC and Income-tax, which has not been deposited till date.

Name of the statute	Nature of the dues	Amount (₹)	Period to which the amount relates	Due Date	Date of Payment
The Employees' State Insurance Act, 1948	ESIC	30,251,804	April 2006 to March 2010	21st of every month	Not yet paid (Refer Note 31(a) to the financials)
Income Tax Act, 1961	TDS	618,588	April 2007 to March, 2014	Various date	Not yet paid (Refer Note 31(a) to the financials)

Management's response:

ESIC:

In January 2011, the Company received a show cause notice for the applicability of Employees' State Insurance Act ("ESI Act"), subsequent to which an assessment order was issued by the ESIC authorities, which assessed a liability of ₹ 6.53 million against us for the period up to September 2010. The order, however, preserves the ESIC's right to inspect our records and determine our contribution under the ESI Act on the basis of inspection.

The Company in Financial year 2010-11 has already deposited ₹ 4.47 million with the ESIC under protest and is contesting the remaining ₹ 2.06 million assessed against the Company. The Company has appealed against the ESIC assessment order

before the Employees' Insurance Court, Mumbai claiming that the provisions of the ESI Act are not applicable to us. However, we have recorded a provision of ₹ 30.25 million in our books of accounts for any liability that may arise under the ESI Act.

TDS:

The company in financial year 2013-14 has received notices in respect of defaults in quarterly TDS returns of previous years filed by the Company. The Company is in process of revising the quarterly TDS returns to regularise these defaults and has recorded a provision of ₹ 1.22 million in the books of accounts of the current financial year, for any liability which may arise under the Income Tax Act, 1961, against which the company has already deposited ₹ 0.6 million during the financial year 2013-14.

Independent Auditor's Report

To
the Members of Just Dial Limited

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Just Dial Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") read with General Circular 8/2014 dated 4 April 2014, issued by the Ministry of Corporate Affairs. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- (b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - (c) The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards notified under the Act read with 8/2014 dated 4 April 2014, issued by the Ministry of Corporate Affairs; and
 - (e) On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

Notes to Financial Statements for the year ended March 31, 2014

1. NATURE OF OPERATIONS

Just Dial Limited ('the Company') was incorporated in India with limited liability on December 20, 1993 under the name A&M Communications Private Limited. The Company provides local search and related services to users in India through multiple platforms such as the internet, mobile internet, over the telephone (voice) and text (SMS).

During the year, the Company completed the Initial Public Offer ('IPO') through offer for sale of equity shares by certain shareholders. The equity shares of the Company were listed on The National Stock Exchange of India Limited, The BSE Limited and MCX Stock Exchange Limited on June 5, 2013.

2. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies Act, 1956 read with General Circular 8/2014 dated April 4, 2014, issued by the Ministry of Corporate Affairs, in respect of Section 133 of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year

3. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

3.2 Tangible fixed assets

Fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

3.3 Depreciation on tangible fixed asset

Depreciation is provided using the Straight Line Method as per the useful lives of the assets estimated by the Management, or at the rates prescribed under schedule XIV of the Companies Act, 1956 whichever is higher as follows:

Particulars	Estimated Useful life	Depreciation Rates (SLM) (%)
Buildings	20 Years	5.00
Plant and Machinery	6 Years	16.67
Computers	5 Years	20.00
Furniture and Fittings	7 Years	14.29
Motor Car	5 Years	20.00
Headsets	3 Years	33.33
Office Equipment	7 Years	14.29

Depreciation on assets purchased/sold during the period is proportionately charged. Individual assets costing less than ₹ 5,000 are depreciated in full in the year of purchase. The lease hold improvements are written off over the period of lease, ranging from 1 to 9 years, or useful life whichever is lower.

3.4 Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in

Notes to Financial Statements for the year ended March 31, 2014

use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects the current market assessments of the time value of money and risk specific to the asset.

3.5 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost, less accumulated amortisation and accumulated impairment losses, if any.

Research and Development Cost

Research costs are expensed as incurred. Development expenditure incurred on an internally generated intangible assets are recognized as an intangible asset, when the Company can demonstrate all the following:

- (i) The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (ii) Its intention to complete the asset;
- (iii) Its ability to use or sell the asset;
- (iv) That the asset will generate future economic benefits;
- (v) The availability of adequate resources to complete the development and to use or sell the asset; and
- (vi) The ability to reliably measure the expenditure attributable to the intangible asset during its development.

Intangible assets are amortised on a straight line basis over the estimated useful economic life. The Company uses a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds ten years, the Company amortises the intangible asset over the best estimate of its useful life. Such intangible assets and intangible assets not yet available for use are tested for impairment annually, either individually or at the cash-generating unit level. All other intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The carrying value of development costs is reviewed for impairment annually when the asset is not yet in use, and otherwise when events or changes in circumstances indicate that the carrying value may not be recoverable.

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from

previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern. Such changes are accounted for in accordance with Accounting standard 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

A summary of amortisation policies applied to the Company's intangible assets is as below:

Goodwill

Goodwill is amortised on a straight line basis over a period of five years. Carrying value of goodwill is reviewed for impairment annually and otherwise when events or changes in circumstances indicate that the goodwill may be impaired.

Software

Application software acquired by the Company which provide long term benefits to the Company are capitalized at cost and amortised equally over a period of 5 years being the estimated useful life.

Website development costs

Website development costs are amortised on a straight line basis over a period of five years being the estimated useful life.

Unique telephone numbers

Unique telephone numbers are amortised on a straight line basis over a period of five years being the estimated useful life.

Application development

Application development cost capitalized are amortized on a straight line basis over the period of 3 years being the estimated useful life of the asset

3.6 Leases

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Notes to Financial Statements for the year ended March 31, 2014

3.7 Borrowing costs

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. All borrowing cost are expensed in the period they occurred.

3.8 Investments

Investments that are readily realisable and intended to be held for not more than a year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties, as applicable.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost unless otherwise stated. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

3.9 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

3.9.1 Income from Services

Sale of Search related services

Revenues from tenure based contracts are recognised pro-rata over the contract period and from lead based contracts as per provision of leads to the customer.

Other Operating revenue

Other Operating revenue comprises revenue from reseller providing data collection services to the Company and Sale of Review and Rating Certification Services

Revenue from resellers constitutes a one-time registration fee and an annual fee. The one-time registration fee is recognised when the contract with reseller is entered into and the annual fee is recognised on a prorata basis over the period of the contract.

Revenues from sale of review and rating certification services are recognised at the time of issuance of the document to the customer

3.9.2 Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

3.9.3 Dividends

Revenue is recognised when the shareholders' right to receive payment is established by the balance sheet date.

3.9.4 Service charges

Revenue from service charges is recognised upon rendering of services.

3.10 Foreign currency translation

3.10.1 Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

3.10.2 Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

3.10.3 Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting such monetary items of the Company at rates different from those, at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

3.11 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset

Gratuity liability are defined benefit obligations and are provided for on the basis of an actuarial valuation on

Notes to Financial Statements for the year ended March 31, 2014

projected unit credit method made at the end of each financial year.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

3.12 Income Taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations

where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. In situations where the company has carry forward tax losses on account of long term capital losses (which can be set-off only against the income arising under the head 'Capital gains'), deferred tax assets arising on such losses are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available under the head 'Capital gains' against which the loss can be set-off.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

3.13 Employee Stock Compensation Cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method and recognized, together with a corresponding increase in the "Stock options outstanding account" in reserves. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting

Notes to Financial Statements for the year ended March 31, 2014

date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

3.14 Segment Reporting Policies

The Company's activities are currently carried out in India and all the services provided by the Company fall in a single business segment of providing local search and related services.

As there are no separate reportable primary and secondary segments, the disclosures required by Accounting Standard 17 - Segment reporting have not been provided in these financial statement.

3.15 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and related attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.16 Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.17 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

3.18 Cash and Cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

The new password shall comprise of minimum 8 characters with at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character (@, #, \$, etc.). The system will prompt you to change your password. It is strongly recommended not to share your password

with any other person and take utmost care to keep your password confidential.

- v) You need to login again with the new credentials.
- vi) On successful login, the system will prompt you to select the EVENT i.e., Just Dial Limited.
- vii) On the voting page, the number of shares (which represents the number of votes) as held by the member as on the Cut-off Date will appear. If you desire to cast all the votes assenting/dissenting to the Resolution, then enter all shares and click "FOR"/"AGAINST" as the case may be or partially in "FOR" and partially in "AGAINST", but the total number in "FOR/AGAINST" taken together should not exceed your total shareholding as on the cut-off date. You may also choose the option "ABSTAIN" and the shares held will not be counted under either head.
- viii) Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/demat account.
- ix) Cast your votes by selecting an appropriate option and click on "SUBMIT". A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you confirm, you will not be allowed to modify your vote subsequently. During the voting period, you can login multiple times till you have confirmed that you have voted on the resolution.
- x) Corporate/Institutional Members (i.e. other than individuals, HUF, NRI, etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. together with attested specimen signature of the duly authorised signatory(ies) who are authorised to vote, to the Scrutiniser through e-mail scrutinizer@justdial.com. They may also upload the same in the e-voting module in their login. The scanned image of the above documents should be in the naming format "Corporate Name_EVENT No.".
- xi) The Portal will remain open for voting from: 18th September 2014 (9.00 a.m.) till 20th September, 2014 (6.00 p.m.).
- xii) In case of any queries, you may refer the Frequently Asked Questions (FAQs) for shareholders and e-voting User Manual available at the "download" section of <https://evoting.karvy.com> or contact Karvy on 1800 345 4001 (toll free).
- xiii) Members may alternatively cast their votes using the Ballot Form which is sent along with this Notice and also available on the website of the Company. Please refer instructions under heading C below for more details.

B. For members who receive the notice of annual general meeting in physical form:

- i) Members holding shares either in demat or physical mode who are in receipt of Notice in physical form, may cast their

votes using the Ballot Form enclosed to this Notice. Please refer instructions under heading C below for more details.

- ii) Members may alternatively opt for e-voting, for which the USER ID & initial password is provided at the bottom of the Ballot Form. Please follow steps from Sl. No.(i) to (xii) under heading A above to vote through e-voting platform.

C. For members who wish to vote using ballot form:

Pursuant to clause 35B of the listing agreement, members may fill in the Ballot Form enclosed with the Notice (a copy of the same is also part of the soft copy of the Notice) and return the duly completed and signed copy (no other form or photocopy thereof is permitted) in the enclosed self-addressed postage pre-paid envelope to the Scrutiniser, Vijay B. Explanatory Statement pursuant to Section 102 of the Companies Act, 2013.

Item Nos. 5 to 7:

The Company had, pursuant to the provisions of Clause 49 of the Listing Agreements entered with the Stock Exchanges, appointed Mr. Malcolm Monteiro, Mr. Sanjay Bahadur, Mr. B. Anand, as Independent Directors on August 2, 2011, in compliance with the requirements of the clause. Pursuant to the provisions of section 149 of the Act, which came into effect from April 1, 2014, every listed public company is required to have at least one-third of the total number of directors as independent directors, who are not liable to retire by rotation.

The Company has received notices in writing from Member of the Company along with the deposit of ₹ 100,000/- each in accordance with Section 160 of the Companies Act, 2013 proposing the candidature of Mr. B. Anand, Mr. Sanjay Bahadur, and Mr. Malcolm Monteiro for the office of Independent Director.

The Nomination and Remuneration Committee has recommended the appointment of these directors as Independent Directors with effect from October 1, 2014 until September 30, 2019.

Mr. B. Anand, Mr. Sanjay Bahadur, and Mr. Malcolm Monteiro, non-executive directors of the Company have given a declaration to the Board that they meet the criteria of independence as provided under section 149(6) of the Act and Clause 49 of the Listing Agreement. In the opinion of the Board, each of these directors fulfill the conditions specified in the Act and the Rules framed there under and the provisions of the Listing Agreement for appointment as Independent Director and they are independent of the management.

In compliance with the provisions of section 149 read with Schedule IV of the Act, the appointments of these directors as Independent Directors are now being placed before the Members for their approval.

The terms and conditions of appointments of the above Directors shall be open for inspection by the Members at the Registered Office of the Company on all working days up to September 24, 2014 from 11:00 a.m. to 1:00 p.m.

Except Mr. Malcolm Monteiro, Mr. Sanjay Bahadur and Mr. B. Anand, none of the Directors or Key Managerial Personnel (KMP) or relatives of Directors and KMP is concerned or interested in the resolutions at item nos. 5 to 7 of the accompanying notice.

The Board recommends ordinary Resolutions set out at item nos. 5 to 7 of the Notice for approval by the shareholders.

Item No. 8:

As per the provisions of Section 149(1) of the Act and amended Clause 49 of the Listing Agreement, the Company should have at least one woman director. Keeping in view the above legal requirements the Board of Directors have proposed that Smt. Anita Mani (DIN:02698418) be appointed as a Director of the Company. Consequently, it is proposed to appoint Smt. Anita Mani (DIN:02698418) as a woman director, liable retire by rotation.

The Company has received a notice in writing from a member alongwith the deposit of requisite amount under Section 160 of the Act proposing the candidature of Smt. Anita Mani (DIN:02698418) for the office of Director of the Company. Smt. Anita Mani (DIN:02698418) is not disqualified from being appointed as a Director in terms of Section 164 of the Act and has given her consent to act as a Director. She holds 544,712 equity shares in the Company.

Brief resume of Smt. Anita Mani (DIN:02698418)

Smt. Anita Mani (DIN:02698418), holds a Bachelor's degree in History from University of Delhi. She has been associated with the Company since its incorporation and has approximately 21 years of experience in the field of general management. She is presently a director of Just Dial Global Private Limited and Superstar Ventures Private Limited.

The terms and conditions of appointment of the above Director shall be open for inspection by the Members at the Registered Office of the Company on all working days up to September 24, 2014 from 11:00 a.m. to 1:00 p.m.

Smt. Anita Mani (DIN:02698418) may be deemed to be concerned or interested, financially or otherwise, to the extent of the aforesaid shareholding in respect of her appointment as a Director. Mr. V. S. S. Mani (DIN: 00202052) who is her relative and the Managing Director of the Company may be deemed to be concerned or interested in the appointment of Smt. Anita Mani (DIN:02698418).

Save and except the above, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No.8 of the Notice.

The Board recommends the Ordinary Resolution set out at Item No.8 of the Notice for approval by the shareholders.

Item No. 9:

Under the Act, directors have been entrusted with new responsibilities to make their role more objective and purposeful. Keeping in view the enhanced role, responsibilities and duties of directors, it is considered appropriate that the remuneration payable to the Non-executive Directors by the Company should be commensurate with their increased role, responsibilities and duties.

Section 197 of the Companies Act, 2013 provides for payment of remuneration to the directors as under:

- a) Payment of remuneration to more than one managing director / whole-time director shall not exceed 10% of the net profits of the Company to all such directors; and

- b) Payment of remuneration to directors who are neither managing directors nor whole-time directors (that is non-executive directors) shall not exceed 1% of the net profits of the Company. If there is a Managing or Whole-Time Director or Manager in the Company.

The Board of Directors of the Company have, subject to the approval of members of the Company, proposed that the non-executive directors (i.e. directors other than the Managing Director and the Whole-time Directors) may be paid remuneration not exceeding in aggregate one percent of the net profits of the Company for each financial year, as computed in the manner laid down in Section 198 of the Companies Act, 2013;

The said remuneration to non-executive directors shall be in addition to the sitting fee payable to them for attending meetings of the Board and Committees thereof.

Save and except all the non-executive directors of the Company and their relatives, to the extent of their shareholding interest, if any, in the Company, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 9 of the Notice.

The Board commends the Special Resolution set out at Item No. 9 of the Notice for approval by the shareholders.

Item No. 10:

The Board in order to attract and reward permanent employees of the Company, its holding company and its subsidiaries, for their dedication and enhance their motivation, enable such employees to participate in the long term growth and financial success of the Company and to enhance awareness of creating value for shareholders, attract and retain talent for mutual prosperity, it is proposed to introduce, Just Dial Limited Employee Stock Option Scheme, 2014, (the "Scheme").

Mr. Ramani Iyer (DIN-00033559) satisfy all the conditions set out in Part-I of Schedule V to the Act as also conditions set out under sub-section (3) of Section 196 of the Act for being eligible for his appointment. He is not disqualified from being appointed as Director in terms of Section 164 of the Act. The above may be treated as a written memorandum setting out the terms of re-appointment of Mr. Ramani Iyer (DIN-00033559) under Section 190 of the Act.

Mr. Ramani Iyer (DIN-00033559), Mr. V. S. S. Mani, (DIN: 00202052) and Mr. V. Krishnan (DIN-00034473) are interested in the resolutions set out respectively at Item No. 12 of the Notice.

The relatives of Mr. Ramani Iyer (DIN-00033559), Mr. V. S. S. Mani, (DIN: 00202052) and Mr. V. Krishnan (DIN-00034473) may be deemed to be interested in the resolutions set out respectively at Item No. 12 of the Notice, to the extent of their shareholding interest, if any, in the Company.

Save and except the above, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in this resolution.

The Board recommends the Ordinary Resolutions set out at Item No. 12 of the Notice for approval by the shareholders.

Item No. 13:

In terms of the provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000, as amended ("FEMA 20") and the consolidated Foreign Direct Investment Policy (circular 1 of 2014 dated April 17, 2014) issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry (the "Consolidated FDI Policy") the aggregate investment by foreign institutional investors ("FIIs") /foreign portfolio investors ("FPIs") in a company is capped at 24% of its paid up capital (the "FII/ FPI Limit"). However, the FII/ FPI Limit can be increased to the sectoral cap or statutory ceiling with the approval of the board of directors and the shareholders of the company. Such increase in the FII/FPI is further subject to intimation to the Reserve Bank of India.

The Company had pursuant to a resolution dated July 27, 2011 passed by its Board of Directors and a resolution dated August 2, 2011 passed by its shareholders, increased the limit on the shareholding of FIIs in the Company from 24% to 49% of its paid-up capital. Currently, the aggregate investment of FIIs in the Company is approximately 26.18% of its paid up share capital.

The one-year lock-in on the pre-IPO share capital of the Company in accordance with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, has expired on May 31, 2014. It is expected that there would be an increase in participation by FIIs/FPIs in trading of the equity shares of the Company on the stock exchanges, upon expiry of the said lock-in. In light of the same, it is proposed to increase the FII/ FPI Limit to 75% of the paid-up capital of the Company.

Accordingly, consent of the shareholders of the Company by way of a special resolution has been sought.

The board of directors of the Company recommends the passing of the resolution set out in Item No. 13 as a Special Resolution.

Neither the Directors nor the key managerial personnel of the Company nor any of their relatives is, in any way, concerned or interested in the proposed resolution.
